**Tiedemann's Diving Center  
Advanced Specialty Program**

# **UNDERWATER PHOTOGRAPHY**

Of all the things that we could possibly do underwater "taking pictures" is number one. That what comes up in surveys of divers as to what they want to do while diving. Yet the equipment that is needed and the knowledge that is necessary intimidate many divers. It does not have to be this way. With the Aqua Shot housing from Ikelite any diver can try underwater photography. With this inexpensive recyclable camera fits right into the housing and allows great 35 mm shots with the minimum amount of fuss. Our program allows you the chance to develop some fundamental skills in underwater photography with this simple set-up.

From beach diving to wreck diving - underwater photography will make diving more fun. If you've always wanted to share your diving experiences with non-diving friends, pictures are the perfect way. Being able to take pictures in the Long Island area means taking pictures on your next warm water vacation will be a "piece of cake".

If you already own an Aqua Shot housing you know what great pictures it takes. During this program we will be using this housing. Also, the use of the macro attachment and the auxiliary flash will be covered. It is amazing what you can do with such a simple set-up. If you choose to move on to more elaborate camera set-ups the skills learned in this program will serve as a great foundation.

The underwater photography program consists of one video session at Tiedemann's Diving Center, one pool session, one pool session and one day of diving (two dives).

Our next **Underwater Photography** course will be held during one of our Advanced weekends. Check our online calendar for the dates of the next course.

The total cost of the program is \$70.00. (\$50.00 if you own your own camera). This includes all instruction and the use of an Ikelite Aqua Shot housing. Each class members will also need the SSI Specialty Diver book on Underwater Photography.

Register by phone, mail online (coming soon) or in person at Tiedemann's Diving Center. Any questions? – Just give us a call at 516-796-6560.

**CLASS SIZE IS VERY LIMITED – PLEASE REGISTER EARLY**
